

I would like to inform you that MAGNA is still active in Refugee registration facility in Slavovský Brod, and that we are again searching for medical doctor (preferably Paediatrician, but possibly also GP or Emergency doctor).

We published our advertisement at ReliefWeb again:  
<http://reliefweb.int/job/1236411/medical-doctor>.

The closing date is written on 15<sup>th</sup> January, but we are searching for doctors continuously, since the length of the contract can be negotiated based on doctor's availability (3 months commitment is a big asset, but we can agree on shorter term as well), so we will consider applications after this date too.

I would be very grateful if you could please share this advertisement with your colleagues.

Best regards,

**Kateřina Struhov**
